Socialization

Puppies need socialization with other puppies and with humans to become good canine citizens and companions. Puppies between the ages of 4 and 14 weeks that have the chance to be socialized and exposed to many people and situations are less likely to develop fears and phobias. Get your puppy off to a good start on being friendly and well socialized by enrolling in a Puppy Socialization class.

In our puppy class, your puppy will play with other puppies and learn proper “good dog” manners and behavior skills. Good manners around people in the class will be rewarded which helps teach the puppy to repeat that good behavior.

Come have fun while you learn the basics of the positive reinforcement method of training your puppy.

Class Schedule

Week 1 of class is an Orientation class; a one hour session without your puppy that focuses on topics such as housetraining, crate training, barking, nipping, proper equipment, appropriate exercise, being a good leader and why positive reinforcement training produces such lasting results.

Weeks two through seven include off leash play and games accompanied by instruction on basic commands such as “sit”, “down”, “off”, “come”, “stay”, and others. You will have a chance to practice in class to ensure you are prepared to continue the training at home.

Each week you will receive “homework” goals as well as helpful information on how to work with the various commands.
