

VetBros Pet Education Charitable Fund

“Educating and providing support to create a better life for our pets and planet”

Mission Statement

VetBros Pet Education Charitable Fund (PECF) is on a mission to provide emergent **healthcare** and **support** for family pets when funding is not available due to **financial hardship**.

We **educate** children and their families how to provide care for their pets, and **career opportunities** available in the field of Veterinary medicine.

A Huge Problem...

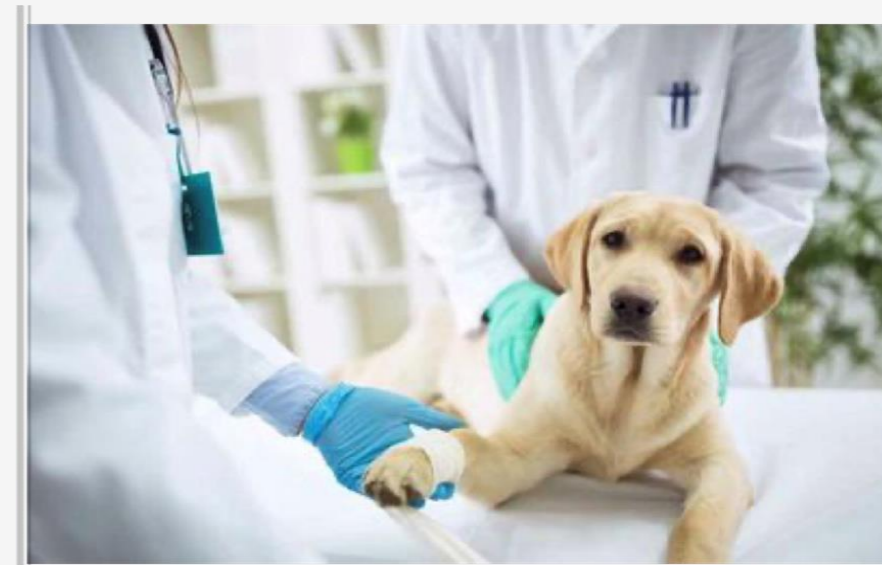

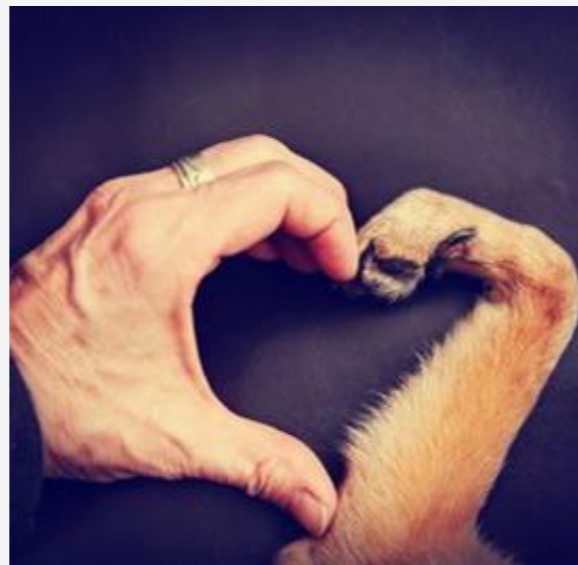

- 1.5 million dog/cats are euthanized each year in the U.S.
- 23 million pets are living in underserved communities
- 77% of pets living in underserved communities have never seen a veterinarian

Our Solution

VetBros PECF provides **financial assistance to Veterinarians and hospitals**, to save pets that can be treated and returned to their families. We offset the financial burden faced by these families which eliminates the need to euthanize these amazing animals.

Our goal: Care for every pet that can be saved.

Problem Pet Care Expense

The expense of life saving treatment is often out of reach for people with lower incomes and those who do not have pet insurance.

Our Solution

VetBros provides **financial assistance with** Veterinarians to families when people with low incomes or financial hardship struggle to afford urgent procedures for their pets.

When a pet is treatable, and the cost to cure the pet is out of reach,

VetBros may assist.

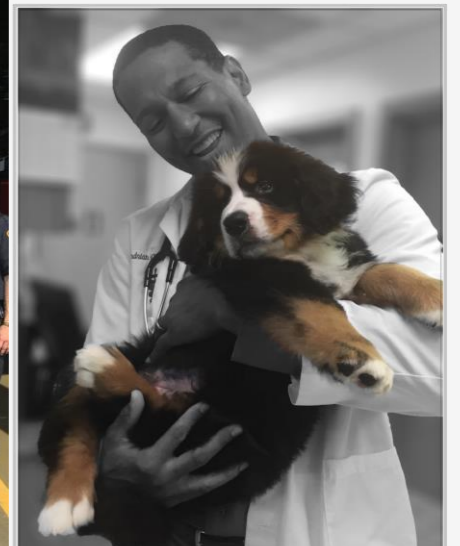

Career Guidance

We expose students and their families to the wide variety of opportunities available within the field of animal health. Few people know about the many career paths available in our industry including a variety of work environments (hospitals, farms, shelters, laboratories) and the many types of animals for which to care.

In Summary

- We extend the lives of our pets, keeping families together longer
- We build a foundation for children in underserved communities to become our next generation of Veterinarians

Our initial request

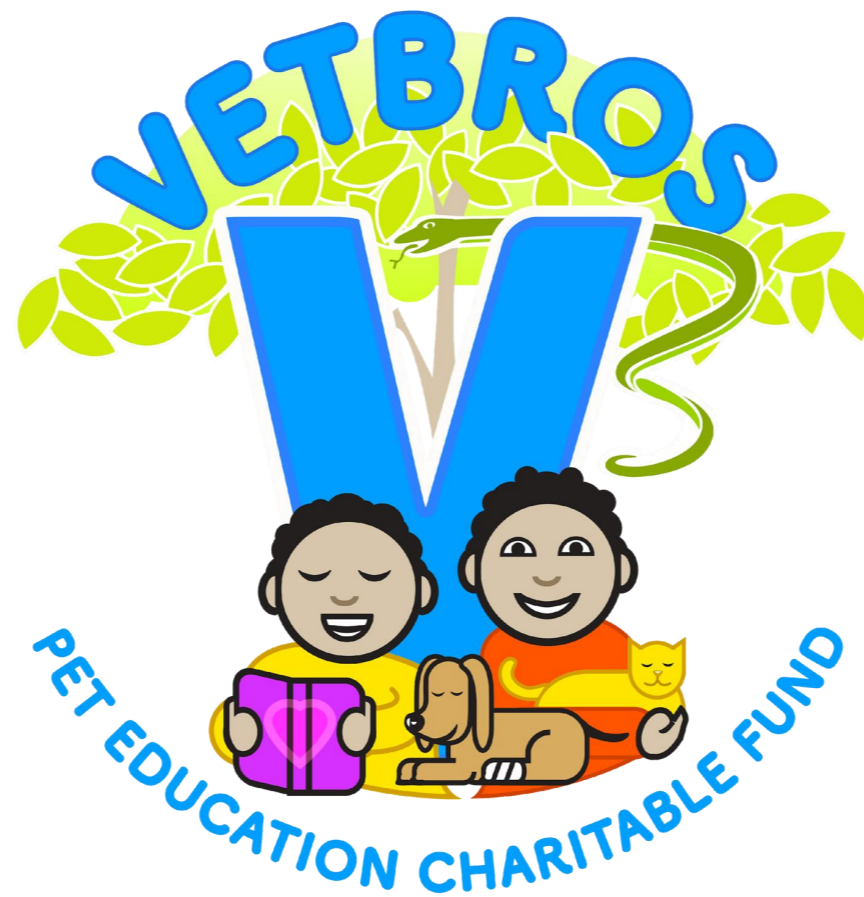

- complete survey of top 5 vendors
- refer 3 colleagues for founding membership
- 5 members on the rules/procedures committee
